

WOOSTER® pelican®

**The Perfect Pail for
Hands-On Painting**

Brushing

In between brushstrokes the Pelican's integrated magnet will neatly and securely hold a brush in place. Because it's molded inside the wall, the magnet won't rust or trap paint. The 1-quart capacity means painters can use the Pelican pail to fly through cutting-in and trim work without feeling weighed down.

Rolling

A built-in roller grid makes the Pelican work seamlessly with all rollers 4½-inches or smaller. A ledge at the top of the grid catches excess paint and returns it back into the pail. A notch under the lip keeps the roller frame in place.

Soothing

Challenging painting tasks are easier because the Pelican makes them more comfortable. To fit different sized hands, the security strap automatically expands. Designed to rest in one hand effortlessly, the Pelican has grip indents for left- or right-hand use. Soft-feel elastomer adds more comfort.

Cat. No.	UPC	Working Capacity	Case Qty.	Cubic Ft. Per Case	Pounds Per Case
8619	0-71497-15237-4	1 quart	6	1.974	5.56

Wooster Pelican Liner 3-Pack

Rigid, form-fitting liners work seamlessly with the Pelican pail. Great for quick color changes. Liners protect the pail and offer instant cleanup. Made of clear, solvent-resistant PET (a recycled plastic).

Other Small Choices with

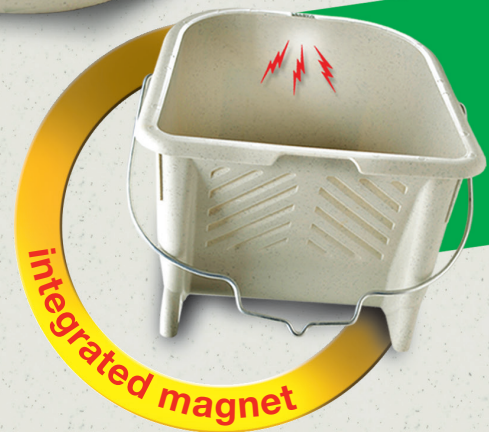

Big Value

Speed Bucket™

It's the Pelican® pail's big brother. The Speed Bucket has an aggressive, built-in grid, perfect for rollers that are 7-inches or smaller. A magnet molded within the rear wall of the bucket securely holds a paintbrush. In between rolling, a frame can rest on the notch found at the top of the grid. The Speed Bucket resists paint buildup and cleans easily thanks to its polypropylene construction.

Jumbo-Koter® Paint Tray

Great for touchups and other small projects, this lightweight tray is designed for rollers that are 4½-inches or smaller. Loading is easy because of the angled grid. The affordable Jumbo-Koter Paint Tray is molded out of recycled plastic.
